Statement – Conflict-Free Minerals

LogiCan Technologies, Inc. takes very seriously recent public concern expressed that trade of conflict minerals originating in the Democratic Republic of Congo is helping to finance conflict and human rights abuses.

LogiCan Technologies, Inc., a Contract Manufacturer for Consumer, Military and Medical industries has issued a statement regarding the sourcing of metals and minerals in its supply chain.

1. LogiCan Technologies, Inc. is committed to operate in full compliance with governing laws, rules and regulations and to adhere to appropriate customer requirements applicable to the procurement of the refined metals used in components and production supplies used in the LogiCan process.
2. LogiCan Technologies will continue to monitor the on-going development of industry practices related to the tracing and tracking of metals and minerals to comprehend the sources of these materials and improve transparency in the electronic industry supply chain.
3. Within the context of this complex and developing issue, LogiCan Technologies, Inc. will take measures to exercise due diligence on the sources of refined metals used in its products and as much as possible to purchase material from suppliers in an effort to achieve a “conflict free” supply chain.
4. LogiCan will communicate this statement to the suppliers of components and production supplies used in the manufacturing process, and recommend that they adopt similar requirements for materials supplied to LogiCan Technologies and for their upstream suppliers.
5. LogiCan’s management is committed to involvement in and oversight of the company’s procurement programs and implementation of this statement on a conflict free supply chain.
